Short description	The aim of the TEAM programme is to improve the human potential in the R&D sector in team projects pursued by outstanding scientists from all over the world (regardless of nationality) at research units or companies in Poland, working in the most innovative areas, with the involvement of a foreign research partner. Financing under the TEAM programme will be provided to projects whose subject matter is listed on the National Smart Specialization (NSS; PL – KIS) list; in exceptional cases, while giving preference to NSS areas, the Foundation may agree to finance projects involving topics not on the NSS list if they show significant application potential or importance for solving a major socioeconomic problem.
